Fifty Years Hence is a quasi-fictional work by Robert Grimshaw, a professional engineer, with the intent of making a serious prediction of America's technological future, using engineering knowledge from his time in 1892. The fictional narrator is 21-year-old Francis Ainsworth. At the Masonic Lodge in New York City, Francis hears a fascinating lecture, based in Masonic mysticism, by one Roger Brathwaite. Francis befriends Brathwaite, who shares some of his future-prediction methods based on graphical engineering, and he lends him a manuscript predicting conditions in America in 50 years. However, before the friendship can flower, Brathwaite is mysteriously killed in a fire at his home, which also destroys his lifetime's worth of records and predictive methods. All that Francis has left is the borrowed manuscript, which is reproduced in the novel. Some predictions, by 1943: a new phonetic language would be designed by philologists and spoken everywhere in the world (see Esperanto); typewriting machines would be ubiquitous and would communicate instantly across the world; all books of record would be written on machine only; telegraphs and...

### Reviews

*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who state that there had not been a worth looking at. You won't really feel monotony at any moment of your own time (that's what catalogs are for about should you request me).*

*Completely essential go through ebook. It can be written in basic phrases and never difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*
