## Outlines of Botany: For the High School Laboratory and Classroom (Based on Gray's Lessons in Botany) (Classic Reprint) (Paperback)

By Robert Greenleaf Leavitt

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Outlines of Botany: For the High School Laboratory and Classroom (Based on Gray's Lessons in Botany) The present text-book has been prepared to meet a specific demand. There are many schools which, having outgrown certain now antiquated methods of teaching botany, find the best of the more recent text-books too difficult and comprehensive for practical use in an elementary course. The large number of subjects included in the modern high school course necessarily confines within narrow time limits the attention which can be devoted to any one branch. Thus, more than ever before, a careful selection and judicious arrangement as well as great simplicity and definiteness in presentation are all requisite to the practical success of any one course of study. This book offers (1) a series of laboratory exercises in the morphology and physiology of phanerogams, (2) directions for a practicable study of typical cryptogams, representing the chief groups from the lowest to the highest, and (3) a substantial body of information regarding the forms, activities, and relationships of plants and supplementing the laboratory...
