Brand New Book ***** Print on Demand *****.Excerpt from The Land of Geysers: A Little Booklet Telling About Yellowstone National Park, Wonderland of the World There is no tourist resort region in all the world like or comparable with Yellowstone National Park. It is unique among the great scenic districts of the world because it has all the attractions of the others and, in addition, the most wonderful natural phenomena known to scientists or geologists. It has Iceland s geysers on a much larger and grander scale. It has Switzerland s splendid mountain scenery. Its plains and valleys are not surpassed in beauty by any in the Old World. In all the world, there s nothing quite like it. Yellowstone National Park is the shining gem of all the scenic jewels of the Great West. It lies part in Montana and part in Idaho and Wyoming, 1,000 miles west of St. Paul and Minneapolis, among the greatest peaks of the American Rockies. Its area is 3,312 square miles. Its immediate control and administration are under the supervision of the United States Government. About the...
