

Crs Report for Congress: U.S. Space Programs: Civilian, Military, and Commercial: September 2, 2003 - Ib92011 (Paperback)

Filesize: 9.42 MB

Reviews

This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Dylan Schaden)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The 108th Congress is addressing a broad range of civilian, military, and commercial space issues. The National Aeronautics and Space Administration (NASA) conducts the most visible space activities. NASA's FY2004 budget request is \$15.5 billion. NASA requested \$15.0 billion for FY2003; Congress approved \$15.3 billion (adjusted for the 0.65 across-the-board rescission, from which the shuttle program was exempted). The loss of the space shuttle Columbia on February 1, 2003, is dominating debate over NASA's future. The space shuttle's primary mission for the foreseeable future is taking crews and cargo to and from the International Space Station (ISS). The two programs are inextricably linked, and Congress and the Administration face many issues, both near-term and long-term, about the shuttle and ISS. The Department of Defense (DOD) has a less visible but equally substantial space program. Tracking the DOD space budget is extremely difficult since space is not identified as a separate line item in the budget. DOD sometimes releases only partial information (omitting funding for classified programs) or will suddenly release without explanation new figures for prior years that are quite different from what was previously reported. The most recent figures from DOD show a total (classified and unclassified) space budget .
