

## Organic Chemistry (the general chemical class of professional higher education planning materials) and Applied Chemistry Series

By GONG YUE FA

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 240 Publisher: East China University of Technology Pub . Date :2010-01-01 version 1 2010-01-01 1st printing. organic The book is 22 chapters. at the upper and lower volumes. Book for the next book. the book includes hydroxyl chemistry. chemistry of amino. carbonyl chemistry. nitrogen unsaturated bond chemistry. Book for ordinary institutions of higher learning of science. engineering and medical students and other professional courses as organic materials. Contents: Chapter 13 13.1 hydroxyl chemical linked with alkyl hydroxyl - alcohol molecules react with the alkali reaction characteristics 13.1.1 13.1.2 13.1.3 acid-catalyzed reaction of dehydrogenation and 13.2 phenol oxidation reaction characteristic of acidic hydroxyl 13.2.1 13.2.2 13.2.3 esterification of phenolic hydroxyl oxidation of phenol color reaction of phenol 13.2.4 13.3 hydroxy acid in the response characteristics of 13.3.1 13.3.2 carboxylic acid carboxylic acid hydroxy acid substitution reaction of oxidation 13.3.3 13.3.4 13.4 carbon decarboxylation oxygen bond cleavage Exercises Chapter 14 amino compounds in the chemical structure of helium-based 14.1 14.2 characteristics of fatty amine chemical reaction nucleophilic reaction 14.2.2 14.2.1 14.2.3 alkaline oxidation 14.3 14.3.1 aromatic amines chemical...

### Reviews

*This publication is worth acquiring. It is actually full of knowledge and wisdom You are going to like the way the blogger publish this book.*

-- Prof. Stanley Hermiston

*Complete guideline! Its such a excellent read. This really is for all who statte there had not been a worth studying. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Timothy Lynch
