MANUAL OF POSTERCRAFT (PAPERBACK)

Read Books, United Kingdom, 2008. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.MANUAL OF POSTERCRAFT - BY Will Clemence - INTRODUCTION - ONE can hardly compress the entire work of the poster-writer into the space of a small volume, nor indeed can one expect to become a competent poster-writer by book learning alone. Constant practice and tuition in the various branches is essential in the making of a craftsman. Not every workshop is fitted to supply such an all-embracing apprenticeship, however admirable their general production may be. I trust that this book will be particularly welcomed by those whose work has been principally confined to one or two branches of the craft, and that its use as a reference may be the means of bringing further varied work into the shop. There are a few aspects of the trade which I have left untouched, as these like figure-drawing for illustration, have been dealt with at length in other works. The wideness of range has also made necessary the compression of many chapters, but I have endeavoured, where possible, to outline the main details of processes and operations. I also wish to thank all those who, directly or indirectly, have assisted in the compilation of this book. Particularly would I thank those whose work is reproduced, the craftsmen with whom I have been privileged to work, and the advertisers and employers who have provided the work. For photographs and illustrations, I am indebted to Messrs. Sheldons Ltd., The Acrograph Company Ltd., Selectasine Silk Screens Ltd., Supcr-Tools Ltcl., Taylor and Heaton, and Mr. Edgar Lupton. -- CONTENTS --INTRODUCTION I . THE WORK OF THE POSTER-WRITER . II . EQUIPPING THE WORKSHOP
